

Hold the foot joint and the body joint as shown in the picture, and slide them together. Do not grip the keys while doing this.

Hold the head joint and the body joint as shown in the picture, and slide them together. As before, do not grip the keys while doing this.

When holding the flute up to play, your shoulders and elbows should be relaxed. Bring the flute up to you—don't bend down to the flute. (We'll talk about this posture—the flute is a little droopy here, but it gives you the idea)

Right hand

Lifting the flute (from the front)

Left hand

Left hand

Lifting the flute (from the back)

Right hand
